* If you have previous health studies, you can apply for validation & the fee of the course will be reduced.

*Medical conferences (included)

Doctor Ángel Garrido graduated in our school in 1992, his current occupation is emergency hospital assistance in Madrid-Spain. (License no. 32942).

Currently he is also the coordinator of medical studies in our school. Through these conferences he will explain how western medicine is compatible with Oriental medicine.

An easy way to understand the human body view comparing the eastern and western mentality.

*Chikung (included)

Health begins with breathing. With this training, you will learn movements and coordinated breathing patterns to help you control the heart rate and to stabilize the body.

To take care of the health of others, it is important to start with yourself.

*Radiological diagnosis classes (included)

X-ray examination is a useful tool to observe the state of the internal structures of the patient. In case the patient brings X-rays, the therapist must understand them to apply the correct Shiatsu treatment.

The schedule of the 2 classes will be provided during the course.

* These classes are not compulsory but recommended for a better understanding of the subjects. The classes have a limited capacity, therefore, preference will be given to level 2 students. Prior reservation is required.

*Master-classes (included)

In these practical classes taught by Master Onoda you will study the most common pathologies that are treated daily at the Shiatsu clinic (office workers ailments, neck and back pain, common emotional imbalances caused by stress and anxiety ...).

The classes are the following **Wednesdays**:

Morning group: 10:00am - 12:00pm | Evening group: 6:00pm - 8:00pm
